Subject: Letter to Pretty Prairie
Attachments: invite to negotiate.docx

I've taken a stab at an initial letter to PP, essentially inviting them to negotiate with us. I didn't think a very heavy handed approach would be appropriate. Please let me know what you think.

FYI, I spoke with Darrel P yesterday, he seems on-board with what we're planning to do re: KS DW enforcement, but wasn't sure about the views of his management. I told him that we were prepared to move forward on Pretty Prairie, which he thinks will help. Told him we'd either need a formal referral from KDHE or NOV's to KDHE and PP before we could proceed. He said that in KDHE's opinion, they had referred it to us for enforcement, but didn't think they had done so in writing. I asked for a formal referral, which he said he would likely provide, but would discuss with Mike T.

I've apprised Chris D of where we're heading on both PP and KS DW enforcement in general, but we've not yet had a chance to discuss.

Please let me know what you think of the letter/approach w/ PP.

Thanks
